~~There are thirteen school districts in Lewis County. Of the thirteen school districts, seven have capital facilities plans. School Districts are not required to prepare a capital facilities plan and project future enrollment and facility capacity unless they are seeking state funding for a capital facility or are seeking to establish school mitigation fees. The County must establish a method to identify and measure capacities and impacts for concurrency purposes in order to collect school impact fees on behalf of the districts. The County will adopt school district capital facility plans, and updates to the same, by resolution. The school districts with capital facilities plans that are adopted by County resolution are incorporated by reference in the Comprehensive Plan and can be found on the County Comprehensive Plan website. These include: Centralia, Chehalis, Napavine, Onalaska, Toledo and Winlock. Not all school district facilities plans include financing plans. Those without financing plans and that are not adopted by County resolution would not be eligible for impact fees.
